

# Regional Stroke Unit

The Regional Stroke Unit (RSU) located at Thunder Bay Regional Health Sciences Centre on 2C is a specialized unit dedicated to the management of stroke patients and staffed by an experienced interdisciplinary stroke team.

## Benefits of Stroke Unit Care

- Reduces morbidity and mortality by 30%
- Access to highly trained health care professionals with stroke expertise
- Standardized, valid assessment tools used to evaluate the patient's functional status and develop an individualized management plan
- Team approach used to prevent stroke complications/recurrence, accelerate mobilization, and provide early rehabilitation therapy

## Interdisciplinary Team
